The background of the image is a dramatic sunset or sunrise over a body of water. The sky is filled with large, billowing clouds that transition from deep blue at the top to fiery orange and red near the horizon. The water in the foreground is dark and reflects the warm colors of the sky. Several birds are visible in the lower-left quadrant, some flying towards the right and others towards the left.

MEMORIES

Memories are made of things
That happen every day.
Moments as we live them,
Things we do or say.

Little bits and pieces
Of laughter mixed with tears.
Paragraphs and pages
Written through the years.

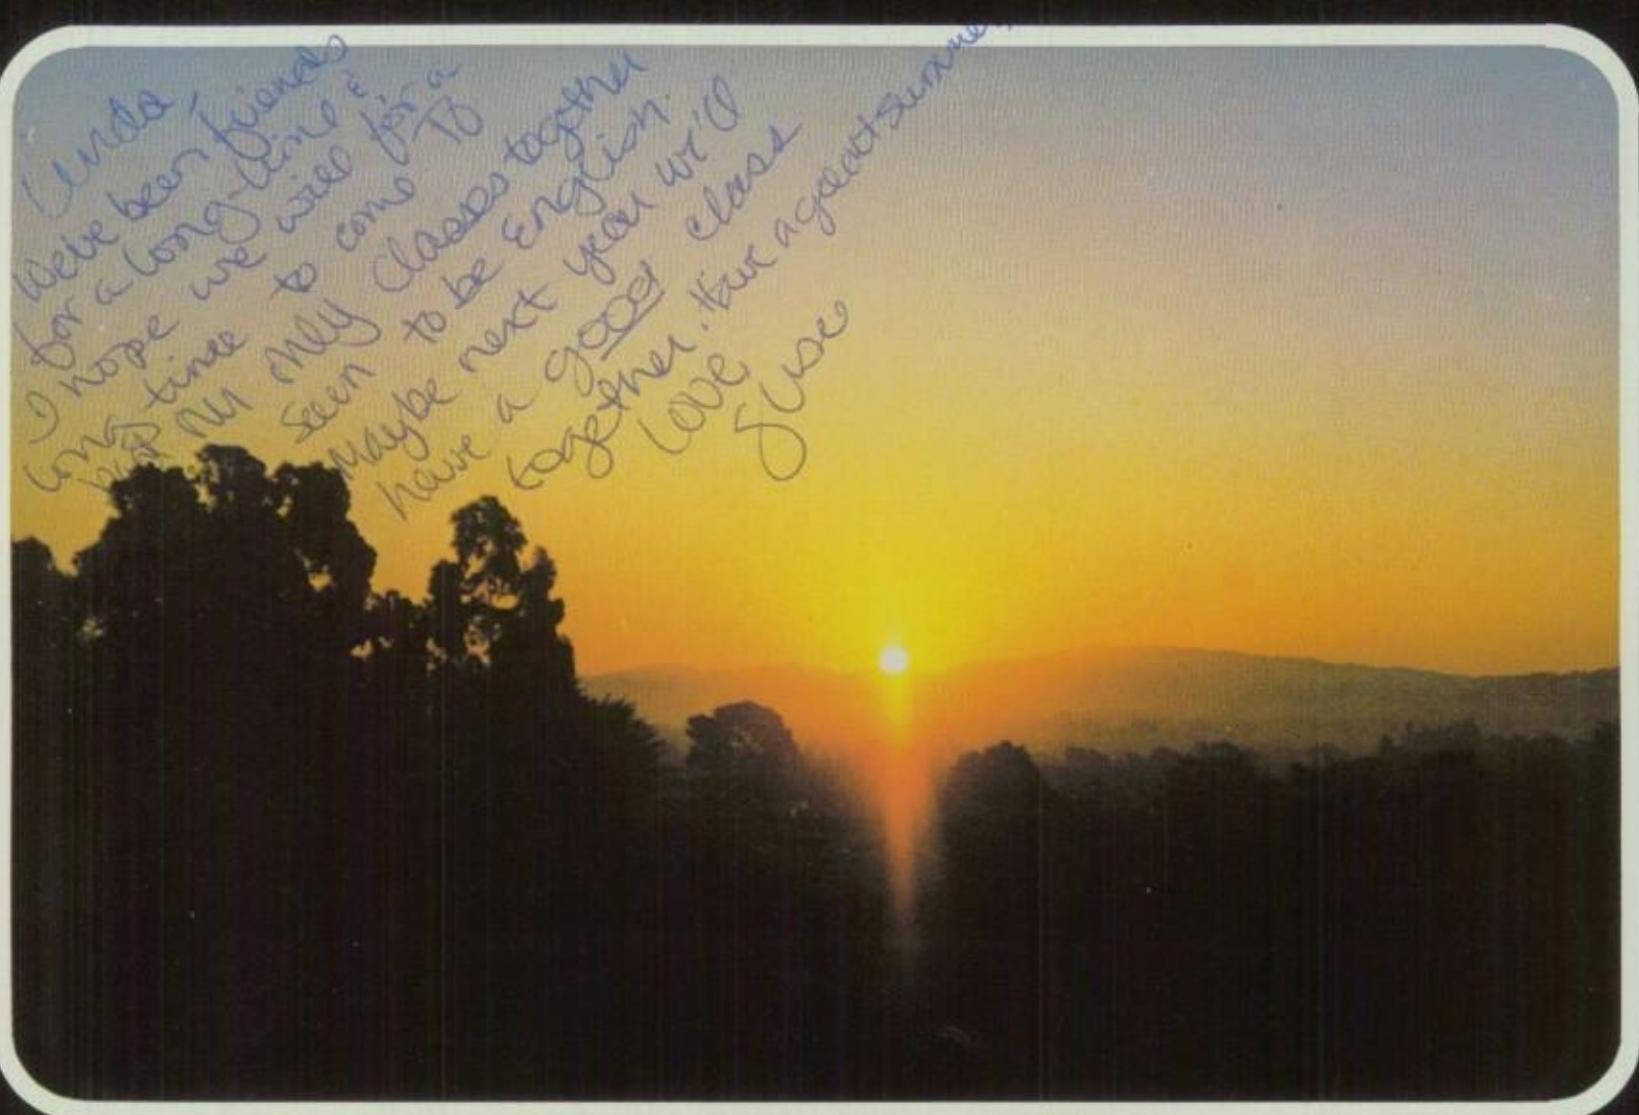

The friendships we remember,
Mistakes that we regret.
The ending of a love
We never could forget.

We can't erase the sadness
Or edit out tears.
We can't undo the wrong,
We can't relive the years.

But since memories keep building,
Each day can be the start
Of making new and happy ones
To store within the heart.

MY JEANS

Rumpled and crumpled,
 Faded blue-white,
 Been through high waters,
 Been through some fights.

Seen plenty of sadness
 and heartaches and pain,
 Been tackled in football,
 Ran through the rain.

Seen a lot of gladness,
 Seen laughter and fun,
 Waded through water,
 Rolled up for the sun.
 Swayed through rock concerts,
 Bumped to the beat,
 Split open while skating,
 Patched on the seat.

Seems like I remember them
 once a dark blue,
 Sort of stiff when I wore them,
 I hated them new.

But all things must soften with age,
 I have seen,
 They faded to light blue,
 and then they were JEANS!

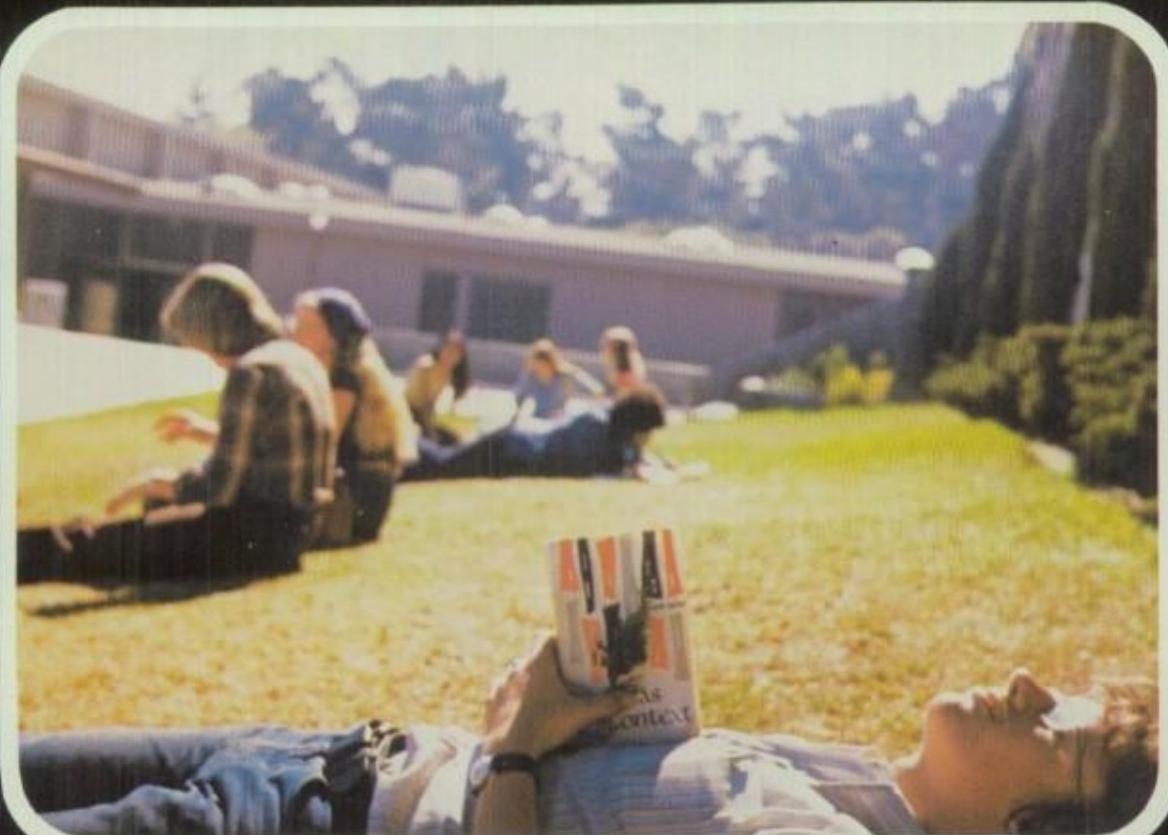

They've seen me in love,
 Out of love, mixed up inside,
 They've seen me in trouble,
 They've seen me lie.

They've aged oh too quickly,
 Some places just threads,
 But I plan to wear them
 'Til they're in shreds.

Well summer's heat in with me now,
 My scissors in hand,
 As I cut off my blue jeans,
 It's like killing a friend!

FACING GRADUATION

Faces of old and faces of new,
People we know and people we knew.
Growing together then drifting apart,
Always an ending and now a new start.
At graduation we all grow nearer
And all of our friends seem so much dearer.
And as we say our final goodbye,
One last embrace and one more cry,
A "keep in touch" and a "promise I will"
A "remember when" but, better still,
A place in my heart, you'll always stay,
This is what's said as we go our own way.

'78 CLASS OFFICERS

MARY ANN MARSCHIK

LORI GRANUCCI-TREASURER

Every weekday since we were five we have gotten up in the morning and trudged off to school. Some of us took a bus, others a car; others ran, walked or rode. On the afternoons, we have turned around to reload the buses, taken off in the cars and headed home again.

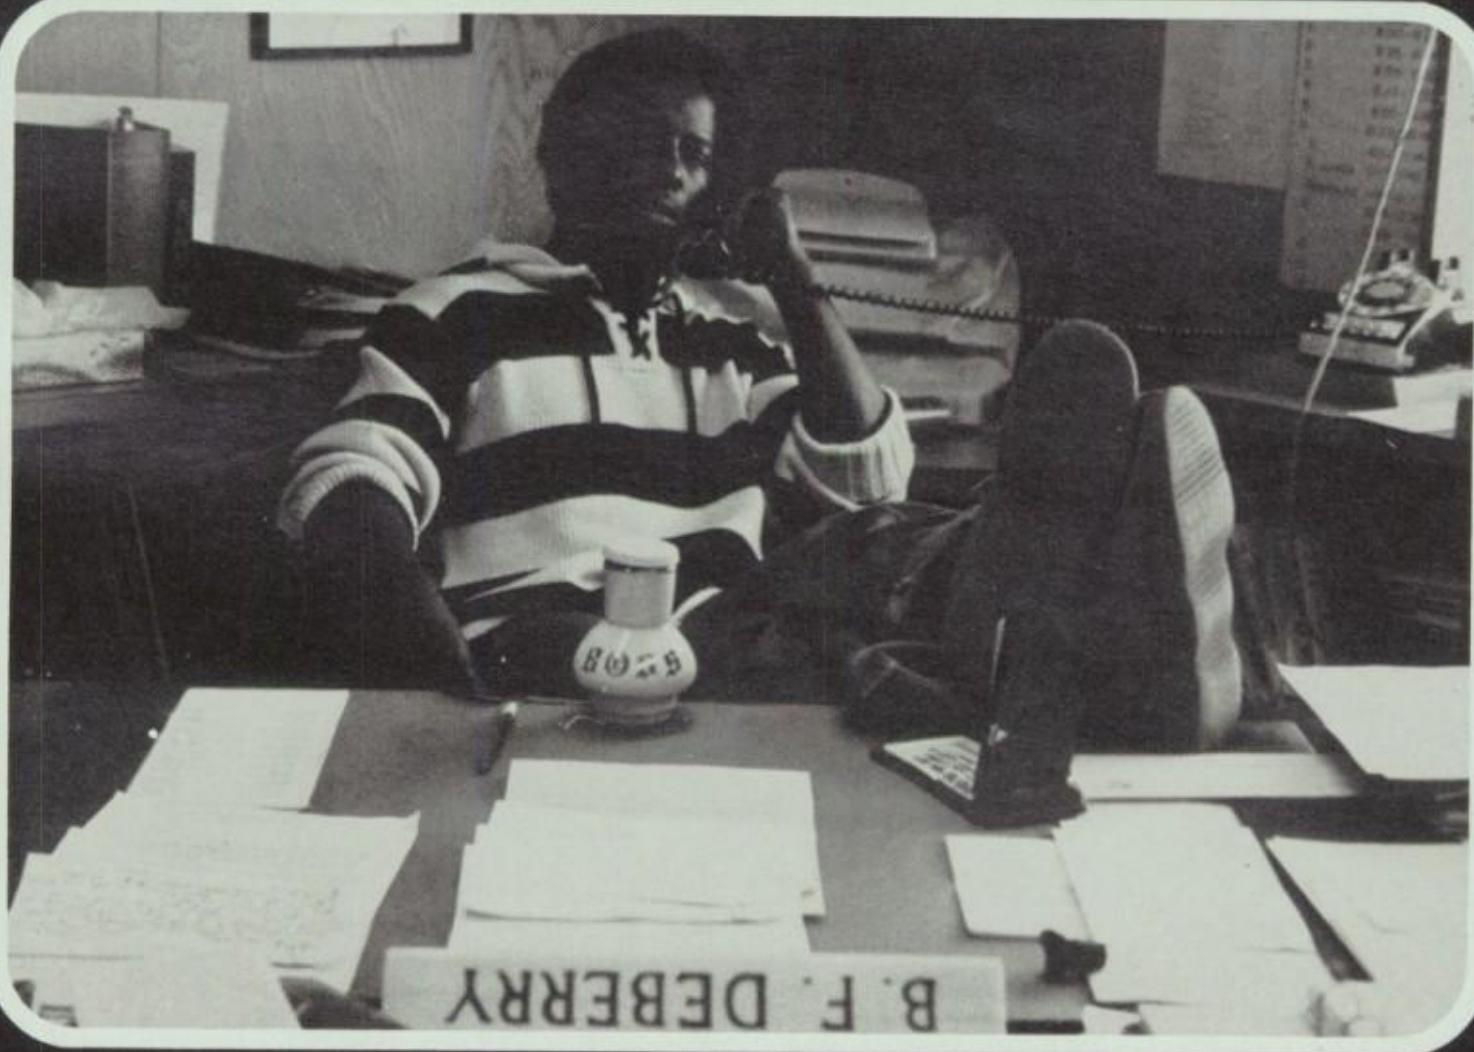

But what happened in those hours between the bus trips? We spent those hours sharing an experience whose memories will linger on as long as we live. We have made friends, enemies, and maybe a few lovers. We've shared the bad and good; we have laughed and cried together, and we've shared victory and loss; and some of us may even have learned a thing or two.

As the Senior Class of "78", we have rarely seen anything but victory so far. Never has Monterey High seen a year when spirit was so high. At Homecoming, we joined together to awe the rest of the school with all the competitions we won—every competition at the rally except for two seconds; and we won the float competition and powderpuff football. We have managed to collect more money than any class has had in a long time, and we seem to be generally contented and looking forward anxiously to Grad Nite in Disneyland and a Senior picnic. But we are also at the end of the mod scheduling era at Monterey High and will be the last class to have modular scheduling for all three years in high school.

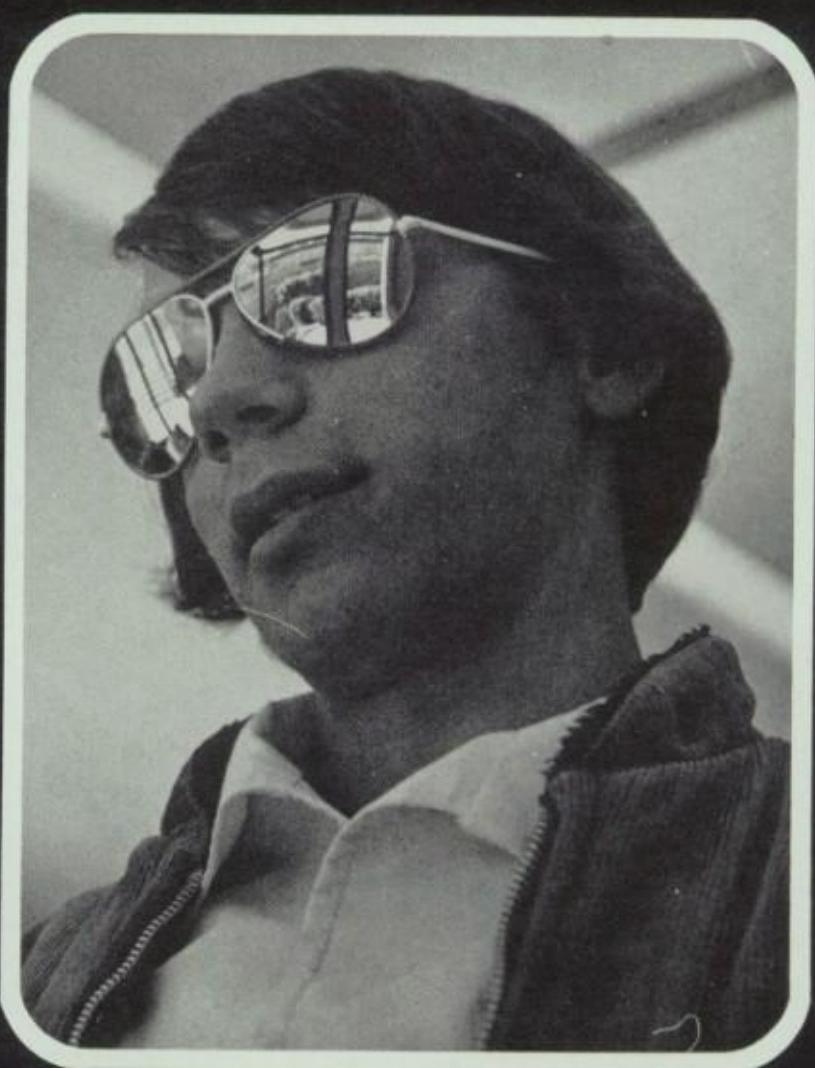

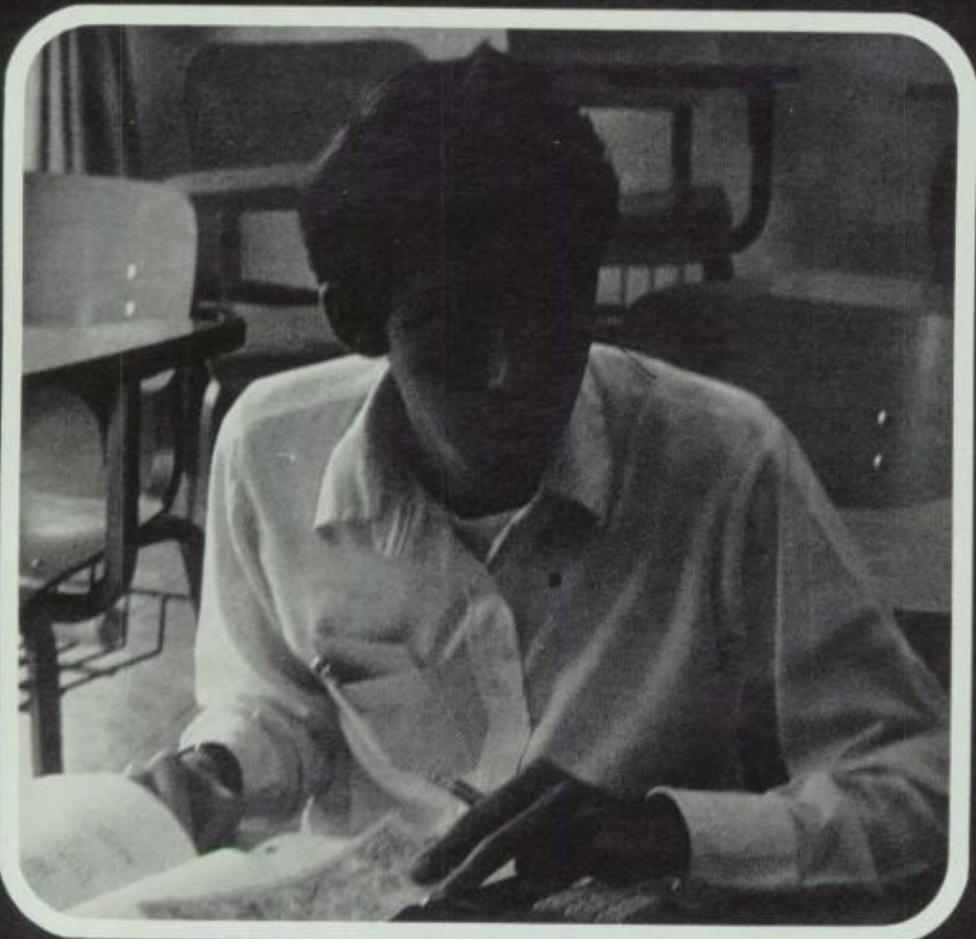

After graduation we will go our separate ways on to bigger and better things. We will love and lose again, fall and pick ourselves up again, and will each have with us our individual memories of high school. Hopefully, they will be useful and happy remembrances. So when we're together for the last time moving the tassel on our mortar boards, I hope we won't be sad, but excited about what our futures hold for us, both together and alone.

With fondest memories and
brightest hopes for the future—

arena
scheduling

Last year in an effort to give students more control over their choice of classes, the administration instituted a system by which students registered themselves in an "arena". This year Arena Scheduling continued with moderate changes. The overall response from the student body has been mixed. Some love the system and others face that time of year with great dread. Regardless of their attitudes, students agree there are many amusements provided at Arena Scheduling. Students can play the "waiting game", or play other games in the unending lines that exist as they wait to get into the gym, to get their cards, to register classes, to see their counselors, and even to get out of the gym. The end of another very popular game is when none of a student's classes fit together and he can't get out of the arena. This and other predicaments can keep a person entertained for weeks . . .

Regardless of his or her experiences, everyone can agree that Arena Scheduling has been a noble experiment.

"Could you please tell me what's going on here?"

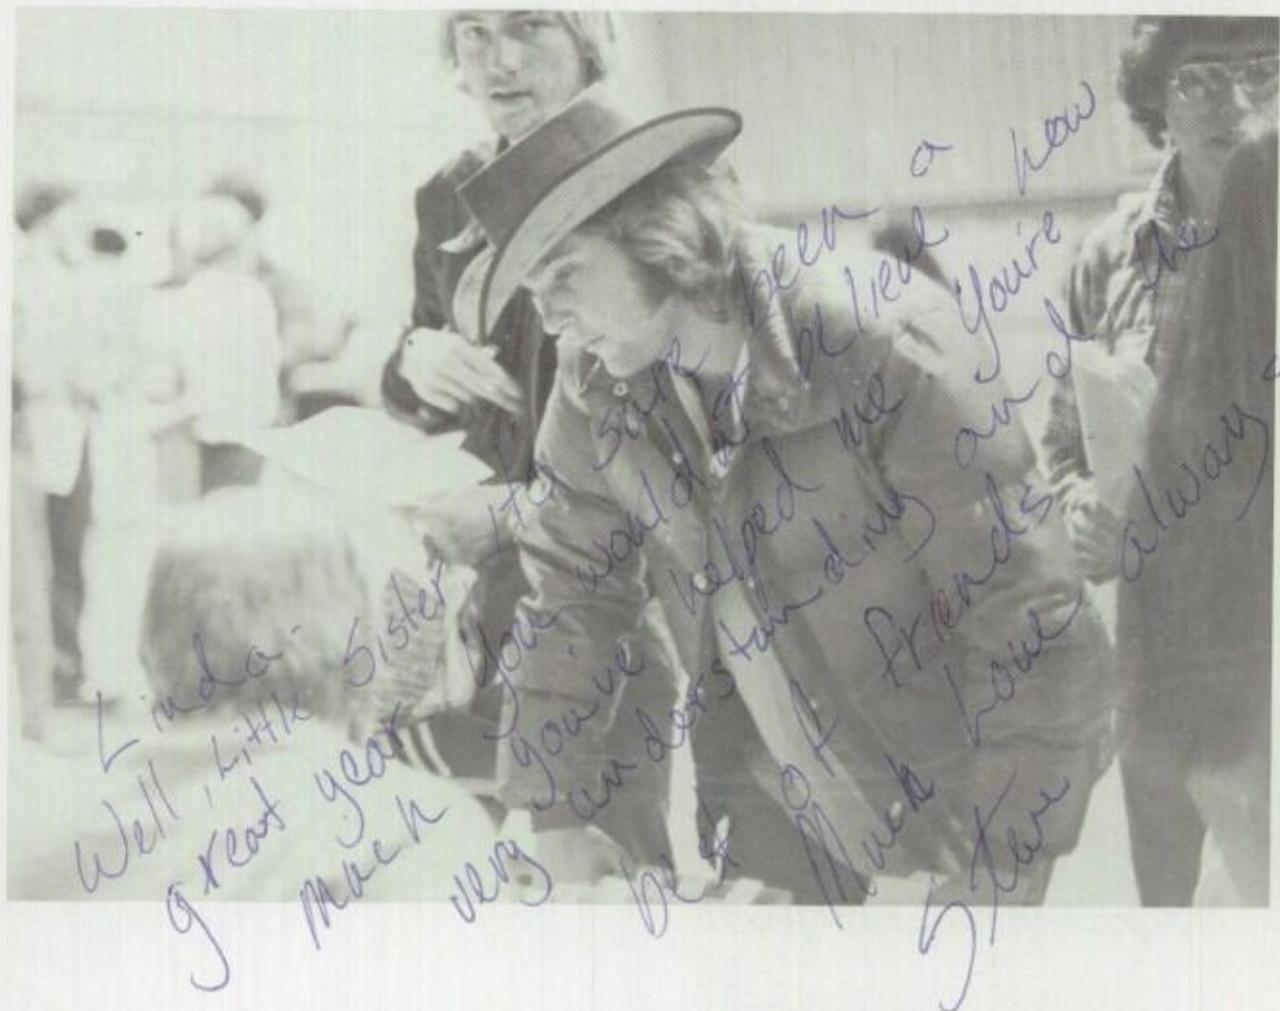

"Are you sure you want that class?"

"Do you think we'll get in?"

"Sure, the Arena is always open till about 10 p.m."

"I get it now, I'm supposed to help people!"

"Mr DeBerry, we're SO confused . . . "

"I'm a teacher and I don't understand."

"Ever eat a pine tree? Many parts are edible . . . "

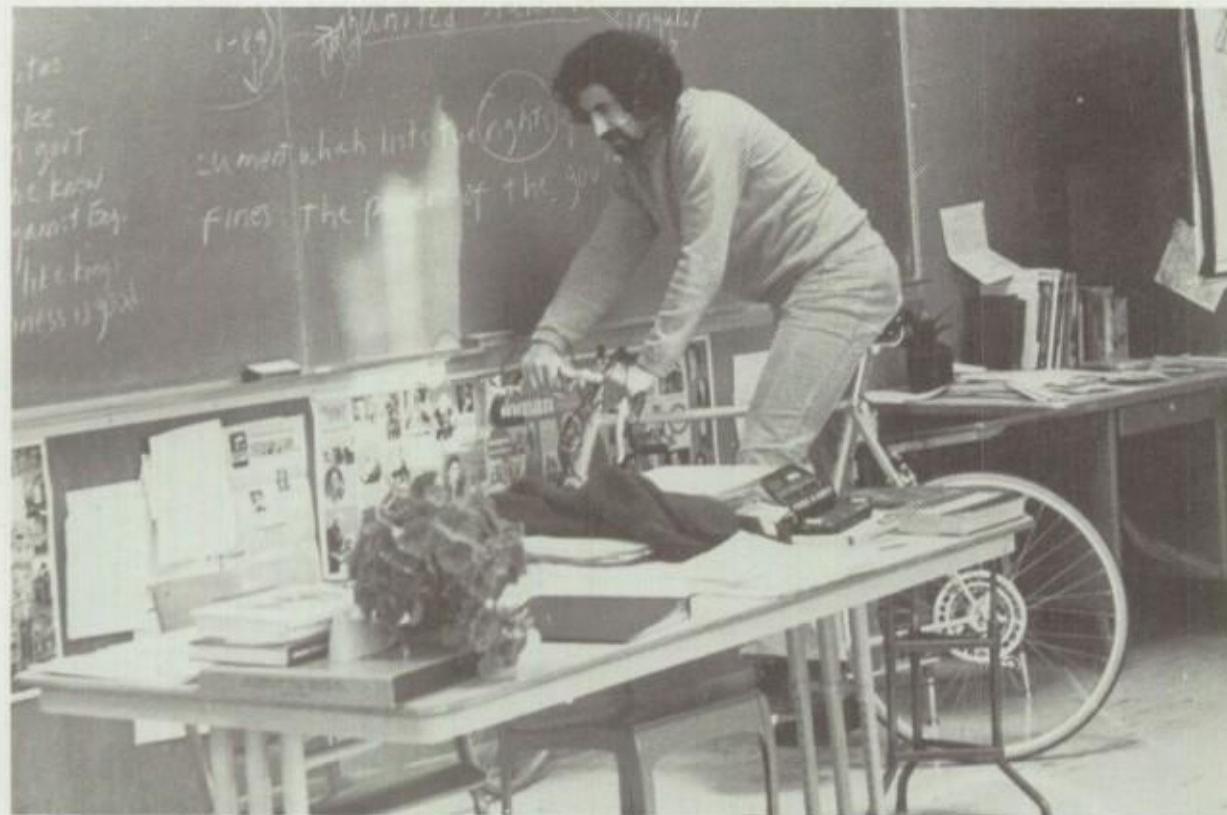

"Faster than a speeding Tammy Gonzalez, it's Captain Zip . . ."

Well,

We made it! One more year to go! Have a great summer and I hope to see you next school year.

This year's rally commissioner and his hard working Rally Committee gave their all to put on some of the best rallies ever seen within the walls of the MHS gym. The class competitions ranged from a tug-of-war to a family-feud-type game and the yell competition every rally. Scott flung insults to the students, but took a few pies in the face in style. The quality of the rallies fell as the students' apathy rose and new ideas got harder to come by; but the memories of the excellence of the earlier rallies continued to overshadow the poor ones at the end of the year. Thanks are due to Scott Ables, the cheerleaders, the faculty, and everyone who went to the rallies during the '77-'78 school year.

Campus Scene

Hi Linda. Well, its been a real exciting year, hasn't it? Especially
in our German class! Your smart to leave a school so early -
school gets so awful - especially
after three years of it. I'll
probably see you around and I
hope you and Dave stay together.

Good
luck!
Love,
Maggie

Out of their seven year history, the Sophomore Team has come in first place six times, only once sharing their title. In their first year they came in second losing their last game of the season to the then undefeated Seaside team. The next year they came in tied for first losing only one game that season. Since then the sophomores have been in first place. The coaches, pictured above left to right, are Ken White, Rei Yoshinobu, and Lee Ketchmer. They have a lot to be proud of. Kris Tachibana (43) pictured in above left shows how the sophomore team has run away with first place without much competition. The scores this season show that our sophomore team has held our winning tradition intact and we can only hope that the future sophomores can keep our tradition going.

Clubs and Organizations

In the distant past Monterey High School has known such organizations as Latin Club, Kennel Club, and Ukelele Club. Since those days the school has changed in appearance and the clubs have changed in purpose. Today Monterey High School boasts of such organizations as Ski Club, Oceanography Club, and Computer Club. In the words of the philosopher David Lew, "Men's ideals are most truly reflected in the organizations they build."

The Ski Club is probably one of the most adventurous clubs around. Its members range from first time skiers to near-experts. Skiing is only part of the fun—the dorm life is another part. The well-rounded group of individuals can dream up just about anything. From Monterey to the Sierras, from bake sales to roundups in the Squaw Valley tram, you can't beat the talented group of skiers from Monterey High.

This year's enthusiastic Spanish Club has had very fun, active, and prosperous year. The Spanish Club has continued to sponsor and keep in touch with an orphan in Mexico through the Christian Children's Fund. To help defray the cost supporting her, it has participated in many fund-raising activities such as bake sales, selling food at games and a mistletoe sale at Christmas. The club has repeated its efforts to print, illustrate, and bind famous children's legends for underprivileged children in Mexico. The club has frequently met for potluck suppers featuring Spanish and Mexican foods.

The M.H.S. German Club has existed for 17 years. The club gives students the opportunity to explore the culture, traditions, and customs of European countries.

This year's German Club has been very active. The club began the school year with a Weisswurst Essen—an evening of musical enjoyment and sampling of various German foods. When the holiday season arrived, the club celebrated with a Weihnachts Partie. (Christmas Party) The German Club plans similar events for the future.

The MHS Computer Club pledges its allegiance weekly in the P-1 clubhouse and sometimes in Tennis too. The members, each of which has been flashing on high technology for several years now, really got behind the whole computer thing. Since EDP has been making inroads all over Spaceship Earth, they consider this just another way to go with the flow. From going to hear some cats at the NPS to tripping on S-Gun criminology, the MHSCC knows where its happening. For sure.

Presidents: (L to R) Jeff Haas, Eddie Cho, Keith Mason, Ward Ruth, Mr. Cruzan, Christopher Schmidt.

MAP READING CLUB

The Map Reading Club is devoted to the belief that the satisfaction of natural curiosity and the sense of relaxation and social fulfillment gained by travelling can be achieved through a special group technique involving the "reading" of Chevron Travel Guide maps.

Members emphasize that one does not so much "read" the map as "travel" it. Claimed one exuberant mapper, "Why, I once did S.F. to L.A. in ninety seconds flat!"

Every meeting someone from the group is asked to discuss some interesting place which he has "visited" recently. On one occasion one of the more experienced members talked about his trip to see the scenic highway wonders of Gonzalez, California.

Several field trips were taken to the library where members were able to experience various other continents and countries, including exotic Nevada, and faraway lands to the north. Future plans include branching into plastic relief and topographic maps.

Mrs. Curtis, Peter Hlasny, Paula Simi, Paul Singer, Edmund Paik, Michele Mandeville, Charles Huckleberry, Mi-ae Jang, Joy Torakawa, Letha Harvey, Laurie Thorngate.

The Medical Careers Club is interested in all fields of medicine. The activities have ranged from hearing a guest speaker representing the American Cancer Society to visiting a local animal hospital to observe veterinary surgery. Varied speakers, such as a county coroner, an optometrist, and a nurse gave the members insight into the world of medicine. In-the-field training, like cardiopulmonary resuscitation, sponsored by the American Heart Association, adds to the wide spectrum exposed to the club. Understanding the patient-care field is the chief aspiration of the Medical Careers Club.

MEDICAL CAREERS CHESS

Darrell McDaniel, Ben Matterson, Phyllis Hatch, W. Martin Ruth.

In the spring, Play Production produced "Doubling in Brass." They worked on the 1890 melodrama for a festival of one-act plays at MPC. The group concurrently prepared for the all-school production of "The Crucible." This classic play dealing with the Salem witch trials was selected for presentation in May.

THE

News production attracts a small but unique group of people. It takes a special personality and a lot of patience to be on the GALLEON staff, but the paper speaks for itself. An award-winning paper must keep up its reputation, and it is the opinion of the staff that this year has been no exception. They hope to attract journalistically inclined people, but are willing to shape anyone into a true reporter. As an outlet for people's opinion and an informer of the facts, they hope that the GALLEON has created a better atmosphere at Monterey High School.

Goin' Places

In December the MHS band travelled to Phoenix to perform in the annual Fiesta Bowl. The band was one of thirty carefully selected bands, ten of which were from California. Total travel time exceeded seventeen hours. After leaving the Ramada Inn in Arizona, the band drove to Disneyland where they performed again. Pleased with the trip, the band felt that it had held its own in the competition.

Most School Spirited - Linda Moore and Peter Olsen

Linda —

So far, every school year we go through a little more together - we grow up a little, we get a couple new boyfriends, we get a little rowdier, etc. This year was no exception. We stuck it out thru another year of Band w/ Mr. Clapper, I'm 5'7" now!! (ha-ha...), Dave and Dave, dances, Debbie's house-sitting house, etc.

I can't believe that in 3 days we won't have any more Heath Handbook assignments, no more U.S. History classes, no more "Pomp and Circumstance"! No more free mods either, though!

I'm sure we'll be keeping in touch over vacation, so I'll be seeing you soon!!

Have fun on Graduation night!!

Lots of Luck,

(My writing is so messy because we just got our term papers for English back, and I'm not not very happy with my grade! -Dary...)

Linda
We've been friends
so long. From kindles
to cars! We don't see much of
each other anymore, but I hope you
know that I still care a lot for you
and your friendship. I'm sure I will see you
this summer, I promise you that! Maybe, if we're lucky,
we'll have a class together. It will definitely be the
first time in a long time. You're a very special friend
Linda, one I could never forget, one I would never want to
forget!

TAKE CARE!

Love ya always
